# Owee — cuaderno de caligrafía escolar (Owee Script 3.4)

Aprender viendo, repasando y repitiendo. En cada fila: **el modelo** (con su lectura), **tres copias claras** para repasar con el lápiz y **dos casillas vacías** para escribir sin ayuda.

**Cómo escribir bien Owee Script:**

1. Se escribe **en línea**, de izquierda a derecha.
2. Cada sílaba es la **consonante** (grande) y, a su **derecha**, la **marca de la vocal** (pequeña).
3. La vocal **no toca** la consonante.
4. Entre sílabas se deja **más aire** que dentro de una sílaba.
5. Puedes darle tu estilo (más redonda, más inclinada), pero cada letra tiene que **distinguirse** de las demás.

## 1. Las cuatro vocales

Cada vocal tiene **su forma**. No existe la i.

| Vocal | Forma | Para recordarla |

## 2. Las consonantes por parejas

La consonante **sonora** es la misma forma **con una barra al medio**.
